

It would be a good thing for several Ada citizens to go to Sulphur Wednesday to attend the Ozark Trails meeting. We need a trail west from Stratford. Let's Go!

BIG INDUSTRIAL DEAL BENEFITS ADA

MANY ACTS OF VIOLENCE AT STRIKE CENTERS

Attempt to Dynamite Rail-
road Trestle Frustrated
by Track Walker.

MORE TRAINMEN OUT

Shootings and Bombings
Reported from Several
Points.

(By the Associated Press)
CHICAGO, Aug. 22.—Walkouts by trainmen on the Southern railroad, resulting in the ups in North Carolina; bombs, beatings, and wreck plots marked the nationwide strike situation today. While movements for a settlement of the strike hung suspended pending the New York meeting of railroad heads and leaders of the transportation brother-hoods, train crews on the Southern railroad refused to turn a wheel or enter the yards at Spencer, N. C., while troops sent there by Governor Morrison remained on guard. Violence continued to flare in various sections of the country. At Huntington, W. Va., a second attempt to dynamite a Chesapeake and Ohio railroad bridge was frustrated when a track walker frightened three men from the trestle. They left behind a box of dynamite and forty feet of fuse.

San Bernardino, Calif., remained in a height of excitement over renewed outbreaks in the Santa Fe yards. A striking electrician was killed and another striker perhaps fatally wounded in a running fight with a negro waiter employed at the commissary inside the Santa Fe enclosure. According to the police, the negro said he emptied a pistol at five men who fired on him from the shop gates. A strong guard was thrown about the jail where the negro is held.

J. D. Feaster, a boiler maker employed in the Louisville and Nashville shops at Boyle, Ala., was kidnapped and beaten unconscious by a crowd of men, according to officers who investigated the story he told after he had made his way to police headquarters.

A hotel at Smithfield, Pa., where 25 railroad workers are quartered, was bombed early today. A miners' bunk house was also damaged by an explosion. State police arrested 15 men after an attack on non-union miners. Ten men were injured in the fight.

ADA TO SEND A DELEGATION TO O. T. CONVENTION

The Ozark Trails convention will convene at Sulphur tomorrow and will remain in session for two days to handle a large amount of important business that is expected to come up.

The Good Roads Motor club of Ada hopes to see a strong delegation go from here and will hold a meeting tonight at the Chamber of Commerce rooms to arrange for trip. An effort will be made to secure as many cars as possible for the trip and all persons having cars and will go are requested to notify N. B. Stall not later than 9 o'clock tomorrow morning. The delegates from here are expected to leave by 10 o'clock.

Any one who can attend the meeting can get a membership card by seeing Sherwood Hill.

CURTIS FLOYD OPENS CREAM STATION AND PRODUCE HOUSE

Curtis Floyd, one of the best known young men of the county, has opened a cream shipping station and produce house on North Townsend avenue known as the Payola Cream and Produce House. He will buy cream and eggs and poultry. It is his ambition to use this as a means of advancing the dairying and poultry interest of Pontotoc county, by making the best possible market for such products.

Curtis is a graduate of the Agricultural and Mechanical College at Stillwater and has specialized on animal husbandry and the sale of farm products. For some time it has been his ambition to do something whereby the farmers of this county can get a profitable income from a side line of farming. He believes he can best do this by establishing the market himself.

Curtis is the son of Prof. and Mrs. A. Floyd of this city.

California Woman Tries to Buy the Husband of Another

(By the Associated Press)
SAN FRANCISCO, Aug. 22.—What seemed yesterday to be a solution to the eternal triangle for Mr. and Mrs. Rodney Kendrick and Mrs. Edith Hunnington Spreckles Wakefield of San Francisco, today did not seem quite so likely to work out. Mrs. Wakefield who was the first wife of the late "Jack" Spreckles, son of John D. Spreckles, Pacific coast capitalist, according to her public admission, made an offer of \$100 a month the rest of her life to Mrs. Kendrick if she would divorce Kendrick, a newspaper artist, so that Mrs. Wakefield could marry him. That is, as soon as Mrs. Wakefield could get a divorce. The offer of yesterday, it was understood, would probably be accepted but early today the artist's wife intimated she might take some legal action other than divorce and that at any rate she would consult an attorney before doing anything.

STATEMENT OF CAR ACCIDENT

George Nance and Walter
Phillips Give Version of
the Affair.

That his car did not hit the car driven by Harold Allen on the gravel road east of Ada Sunday night, is the gist of a statement given today by George Nance, Mr. Nance and Walter Phillips were in the roadster when the accident occurred. Mr. Phillips verifies Mr. Nance's statement that the roadster did not hit the Allen car.

Jess Blocker, the driver of the team which was on the road, is reported to have made the same statement, though a reporter did not see Mr. Blocker.

According to Messrs. Nance and Phillips, the incidents were as follows:

Mr. Nance wanted to pass the Allen car, from the time they left the Homer school house, almost a mile to the east. He could not get around and fell back when he saw the team coming on the south side of the road. When he passed the team the Allen car was some distance yet in front of the car. They then passed the Allen car and Mr. Phillips says that he was on the side next to the Allen car and that there was plenty of room between the two.

These gentlemen also insist that they gave every assistance to those in the damaged car. They brought the two boys to own and went for a doctor for the injured girl. Miss Thelma Tidwell brought in the ladies. They say that neither car showed any signs of contact and that neither was injured on the sides where an impact might have been possible.

Neither Mr. Nance nor Mr. Phillips attempts to explain the cause of the Allen car going into the ditch, unless the driver for some cause lost temporary control.

Preliminaries in Elks Golf Tourney Drawing to a Close

Additional information on the Elks Golf Tournament was given this morning by Harry Schienberg, who is in charge. He said that this afternoon was the last opportunity that players would have to turn in their scores. All preliminary matches not already played, or completed this afternoon, will be forfeited, it was said.

In recent playing in the men's division R. W. Simpson eliminated W. N. Mays by the score of 109 to 119. A. W. Parker eliminated Harold Constant by the score of 107 to 115. Roy Givens eliminated Harmon Ebey by the score of 97 to 105. Sam Schienberg remained in the tournament on default of his opponent, John Craig (who is out of town). W. O. Mattison qualified for the finals with a score of 99.

Matches to be played this afternoon were: Marshall Harris vs. W. J. Coffman; Dennis Davis vs. C. M. Thussen; Paul Carson vs. J. G. Breco; Harry Schienberg vs. Bruce Ligon.

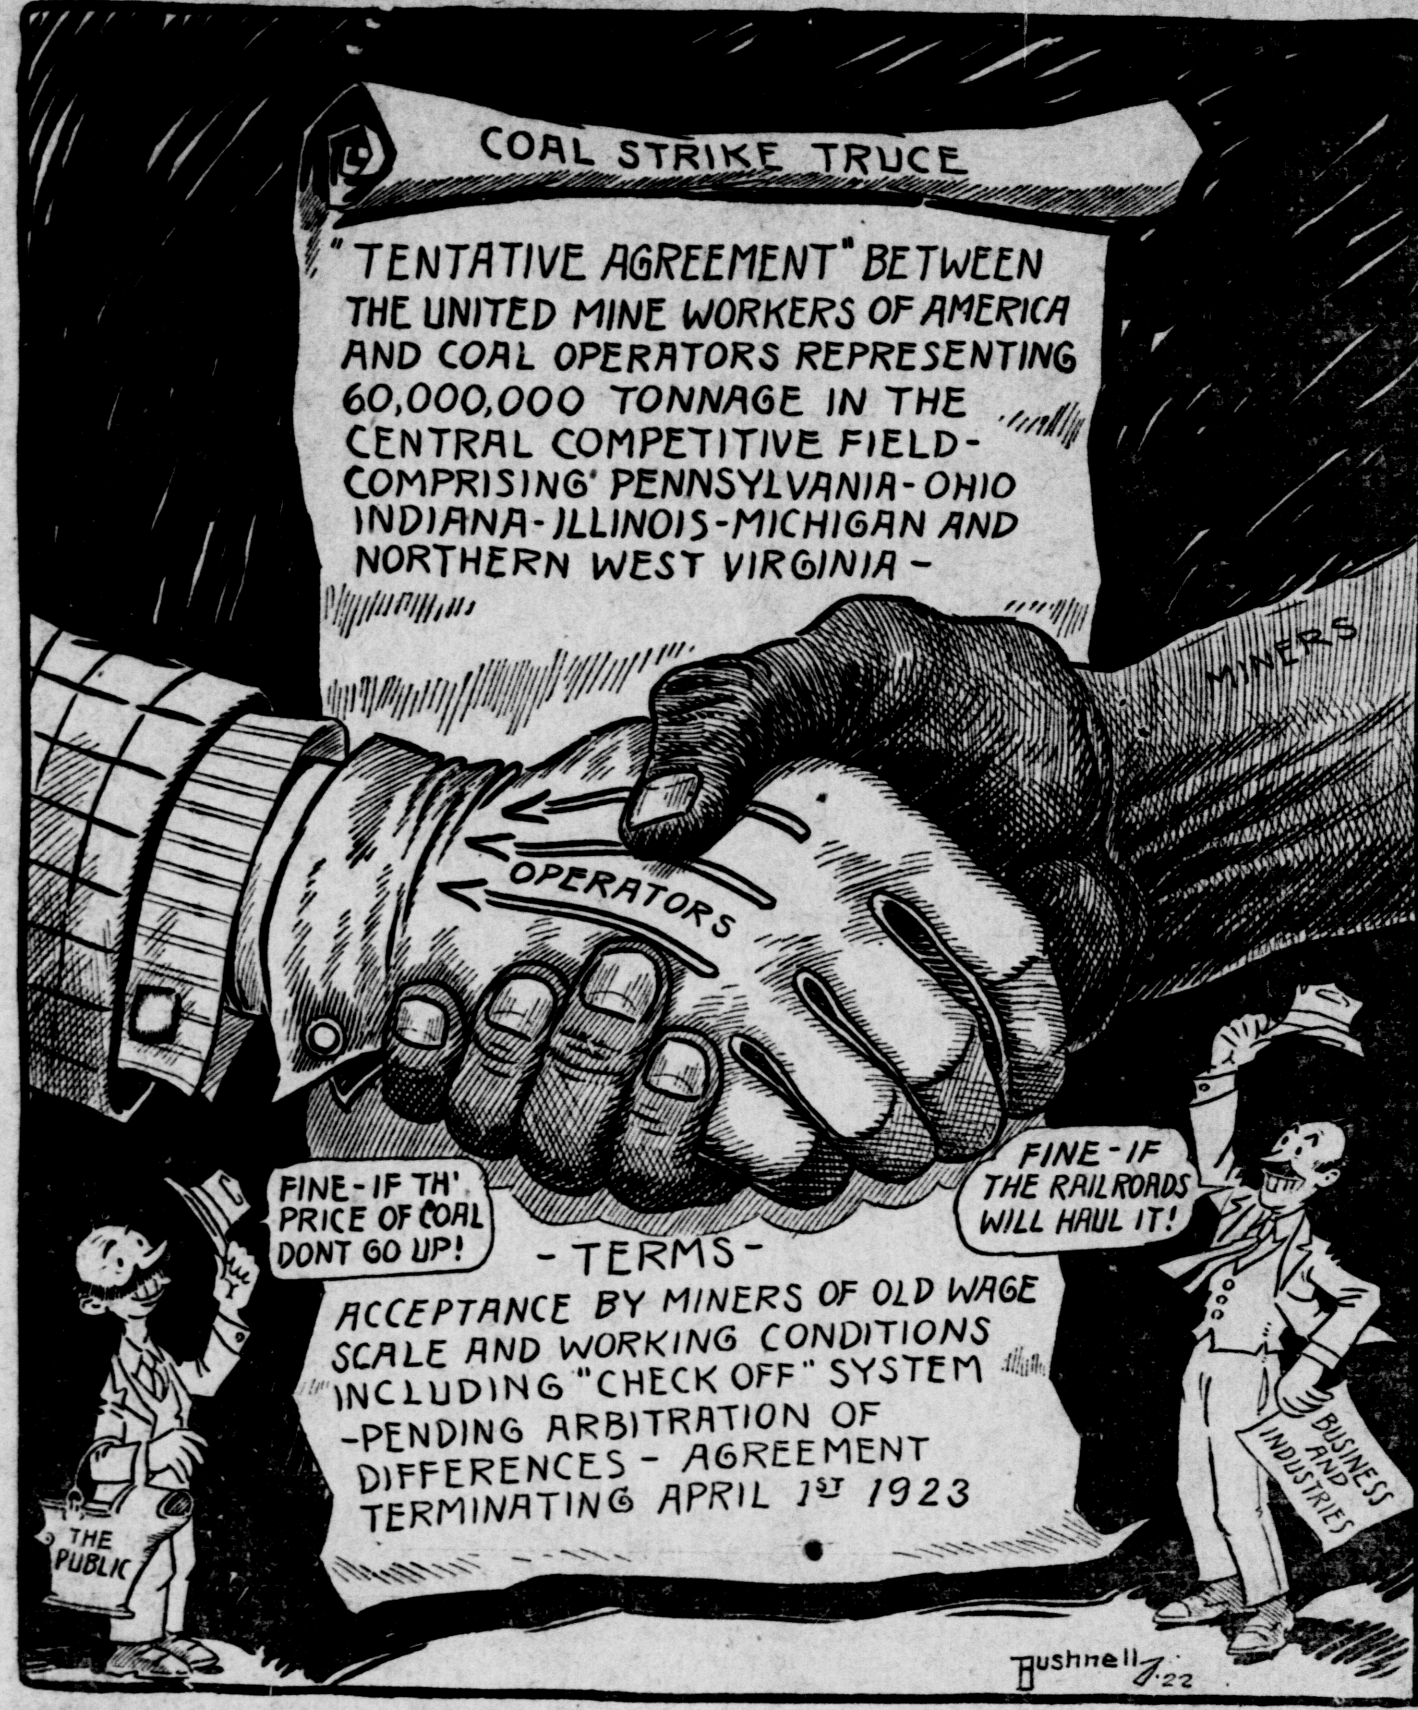

Mrs. A. W. Parker and Mrs. J. H. Patten will be scheduled to play one day next week for the championship in the women's division.

Weather

Tonight and Wednesday partly cloudy.

NOW IF THE RAILROADS FOLLOW SUIT, ALL WILL BE "JAKE"

FRANCIS OIL REFINERY BUSY

Now Handling Around 300
Barrels Per Day from
Okfuskee Fields.

The Francis Oil and Refining Company's plant at Francis is now refining oil to the extent of about 300 barrels a day. The company has in use eighteen tank cars, bringing the crude oil from Okfuskee county and the refined products to various points in the Southwest.

The officials state that they are finding a ready market for all the refined products and everything looks encouraging for a prosperous career.

The refinery is marketing gasoline, kerosene and fuel oil. Part of the fuel oil is used in the plant itself. The Frisco railway has asked for the remainder of the output, but a trade has not been made.

This company was organized mainly by G. T. Blankenship and Charlie Martin. Mr. Blankenship is in charge of the operations with his home here, and Mr. Martin is in charge of the Oklahoma City office.

The plant is located on a high hill overlooking the country south and west of Francis. Pumps take the oil from the tank cars and put it in the distilleries. When the products are refined, they are loaded by gravity into the cars.

C. B. Wood, who has been in the refining business for many years, is superintendent of the plant. He is enthusiastic over the outlook for profitable operations.

Loree's Statement All Bunk, Strike Committee Declares

(By the Associated Press)
NEW YORK, Aug. 22.—Assertions of L. F. Loree, chairman of the Eastern President's Conference that talk of peace in the strike was "all bunk" were attacked by the eastern strike committee of shopmen today in a telegram to Bert M. Jewell, president of the labor organizations, in Washington.

"The Loree group of eastern railroad executives, insignificant in number, but backed by the vast powers of the Morgan-Geary open-shop interests, is making a desperate 11th hour attempt to scuttle the strike settlement," said the telegram, dispatched by John J. Bowd, chairman of the metropolitan district strike committee.

Alleged Wreckers of the Clarita Bank Fight Extradition

OKLAHOMA CITY, Aug. 22.—A bitter legal fight looms over the return to Oklahoma of the three men held in California jails on charges of wrecking the First State bank of Clarita, information received Monday by Roy Walcott, state bank examiner indicates.

Wendell Johnson, special attorney for the bank commissioner, and John Knox, bank examiner, were to leave Monday night for California. They carried with them documentary evidence to support the contention that the men should be returned to this state for trial. At the same time it was learned that special attorneys have been employed in Oklahoma to go to California to aid in the fight against extradition.

Requisition papers for the return to Oklahoma from California of A. O. Garrett, H. C. Staggs, Alva E. Smith and C. E. Funnell, were in the governor's office Monday. The four men are charged with conspiring with G. L. West, acting vice president of the Clarita bank, to embezzle \$46,000 of the bank's funds.

Information has also been prepared charging that the same men were instrumental in wrecking the Valley Park bank at Parker, Ariz.

KATY RAILROAD WILL BE SOLD

Receivership Will End With
Sale of Property Sep-
tember 20-21.

DENISON, Aug. 22.—All the property of the M. K. and T. railroad will go under the hammer September 20 and 21, according to an announcement here today and a notice of sale carried in a local newspaper. The Texas portion of the road will be sold in Denison September 20, at one p. m., the announcement stated, and the property in Missouri, Kansas and Oklahoma will be sold at auction at Colbert, Okla., a small town ten miles north of Denison, September 21, a. m., the notice reads.

Doctors and lawyers of Japan advertise extensively and it is not considered a violation of professional etiquette for them to do so.

BOARD REPORTS ON BECK CASE

Investigators Said to Have
Reported Colonel Beck
Was Not Guilty.

(By the Associated Press)
WASHINGTON, Aug. 22.—Secretary Weeks has received a voluminous report made by the army board of investigation into the killing of Lieut. Col. Paul Ward Beck, by former Judge Jean P. Day of Oklahoma City, early last April. The secretary of war said he had not read the report, but it was indicated that the army officer was found by the board to be not guilty of misconduct.

Reports that the investigators had recommended that evidence collected should not be given to civil authorities with a view of re-opening the case in civil courts for trial of former Judge Day could not be confirmed.

History of the Case
OKLAHOMA CITY, Aug. 22.—Lieut. Col. Paul Ward Beck, one of the army's foremost fliers and commandant of Post Field, Okla., aviation station, was slain here early on the morning of April 4, in the fashionable home of former Judge Jean P. Day, wealthy barrister and oil operator.

Day admitted to a coroner's jury that he killed the officer when he returned home after escorting to their residences a number of guests who had attended an informal party in honor of Lieut. Col. Beck, and found the aviator attempting to assault Mrs. Day. The verdict of the jury exonerated Day and recommended that no criminal action be taken against him.

At the same time an army board of inquiry from Ft. Sill was conducting an independent investigation, a report of which was forwarded to the war department. It is said the secretary of war expressed dissatisfaction with the report and several weeks later another board, composed of ranking officers at Ft. Sill, conducted secret hearings in the federal building here.

DYNAMITE EXPLOSION KILLS TWO AT GOOSE CREEK

HOUSTON, Tex., Aug. 22.—Two men were killed and a third injured at Goose Creek, 23 miles from here, when a charge of dynamite exploded this morning in a blacksmith shop at the oil town. The dead are M. P. Woods and P. H. Holliday and the injured is F. H. Fleeter, all residents of Goose Creek.

Pomerene Charges Republicans Fail to Redeem Pledges

(By the Associated Press)
COLUMBUS, OHIO, Aug. 22.—Charging that the republican administration at Washington had repudiated its campaign pledge of 1920 and that a greater part of the legislation of the present congress had been for the benefit of big business rather than ordinary citizens, Senator Pomerene, delivering the keynote address at the democratic state convention here today, predicted a democratic victory in November.

Bitter criticism of the republican tariff bill which he termed "the greatest piece of pork barrel legislation in the history of congress," formed the major part of the address which also touched upon what Senator Pomerene declared the complete failure of the administration to enact constructive legislation.

Judge C. A. Powers returned today from a sojourn of several days at Sulphur.

OCIE BABB SUES NEWS FOR \$25,000

Error in Name in Police
Police Court Item Causes
Big Damage Suit.

As a result of an error in a name appearing in the issue of August 7, the Ada News, Tom D. McKeown, president, J. F. McKeel, vice-president, and W. D. Little, secretary-treasurer of the News company, are named as defendants in a suit for \$25,000 filed Saturday by Miss Ocie Babb of Frisco through her attorneys, King and Crawford. The item complained of was in the police court news and stated that Ocie Babb and two other parties had been arrested on a charge of drunkenness. Saturday Mr. Babb, father of the plaintiff in the suit, called at the News office and stated that an error had been made; that his daughter's name had been mixed. He was very reasonable about it and appeared to be satisfied with the promise of the News to correct the error. Of course the paper always regrets to have errors creep in, even though as in this case when it did not make it, and very readily corrected the one in question in the following statement which appeared on the front page of Saturday's issue:

"An error in the transcribing of a police charge to the police judge's book has caused considerable trouble and worry according to news reaching Ada today. Several days ago, several boys were arrested and brought before the Mayor's court on a drunk charge. One of the boys charged was Ocie Babb. When the transcript was made, the name was written Osie Babb, and when the reporter from the News copied it, he got it Ocie Babb. Now it happens that Ocie Babb is a young lady, a sister of Ocie and one of the most popular young ladies in the Frisco community. When her neighbors saw the story, they were amazed and could not understand the matter. Saturday the matter was brought to the attention of the News, and a search for facts revealed the error.

"City officials are sorry the mistake was made, thought it is a matter which ordinarily would never cause any comment. It simply happened that the similarity of names produced the wrong impression."

The petition alleges that the News "maliciously composed and published concerning the plaintiff in said newspaper, and that said Tom D. McKeown as president of the said newspaper concern, and the said J. F. McKeel as vice president of said concern, knew of and acquiesced in the statement published in said newspaper wherein it has been alleged that said Ocie Babb was charged in the police court of Ada with being drunk."

The News reporter who handled the item states that he took the name as read to him by the chief of police and spelled it as it was pronounced, and that as he had never seen or heard of any of the parties in the case he supposed the names were all those of boys.

AMERICAN FAVORITE WINS IN FRANCE, ODDS 40 TO 1

(By the Associated Press)
DEAUVILLE, France, Aug. 22.—Americans at this most expensive of French summer resorts—and they are numerous—enjoyed free hospitality yesterday at the expense of the Pari-Mutuel Machines when "American Beauty," ridden by Frank O'Neill, of St. Louis, France's premier jockey, got home by a head to win the first race by the juicy odds of 40 to 1.

OSAGE COTTON OIL COMPANY SELLS PROPERTY

P. A. Norris to be General
Manager of an Immen-
se String of Mills.

DEAL CLOSED TODAY

Heads of Departments and
Chemical Laboratories
to be Here.

The Choctaw Cotton Oil Company today completed the purchase of the property of the Osage Cotton Oil Company, consisting of cotton seed oil mills and gins scattered over Oklahoma, Louisiana, Arkansas and Florida. The general offices will be at Ada. The consideration was not announced but it is known to run into large figures.

The officers of the company are F. J. Phillips of Greenville, Texas, president; P. A. Norris of Ada, vice president and general manager; Hugh Halsell of Dallas, vice president; A. B. Scarborough of Bonham, Texas, vice president; and E. J. McKinney of Ada, secretary-treasurer.

The directors consist of the officers and A. C. Burton, who will move to Ada in a few days, and J. R. McKinney of Durant. The holdings of the company now consist of 26 oil mills, one refinery of cotton seed oil, one lard compound plant, and 100 gins. The refinery and compound plants are in Florida, 21 of the oil mills are in Oklahoma, one in Louisiana, two in Arkansas and two in Florida. The gins are scattered over the states named.

The company was organized under the laws of the state of Delaware and a home office is maintained in Dover. The operating offices will be here, however, and the entire office force and equipment of the Osage Company's offices in Muskogee will be transferred to Ada.

In an interview this morning, Mr. Norris said he did not know just what building would be used for the offices. Neither did he say how many men will be employed. It will probably be by far the largest office force ever maintained here.

The heads of the various departments will be here, as will the chemical laboratory. From this place will go out all orders and much of the material for use in this great line of industries.

The deal has been in progress for weeks. For several days the giants of cotton seed industries have been in Ada, conferring with Mr. Norris, Mr. McKinney, Mr. Phillips and others. Many details were necessary and the negotiations stretched out over a long period of time.

The Choctaw company has been operating only a few mills for two or three years. The local mill was owned by the Osage line and was included in the transfer.

On account of the shortness of the time before the season opens, the office force will be assembled just as rapidly as the men can get here and the necessary arrangements can be made.

Ferguson Dares Heckler to Meet Him in Fist Fight

(By the Associated Press)
DALLAS, Aug. 22.—While Earle Mayfield, candidate for the democratic nomination for United States Senator was speaking of his stand as to union labor at Beaumont, last night, his opponent, former Governor James F. Ferguson, experienced a near riot at Houston. The trouble began when Mr. Ferguson started to speak against the Ku Klux Klan. As he started to speak, part of his audience began leaving amid howls and jeers. The tumult ended with the former governor inviting a member of the audience down to the front where he said he would "whip him (the man) in five minutes in more ways than a farmer can whip a cat." The invitation was prompted by a remark flung at the speaker by a member of the audience. No one showed up at Mr. Ferguson's invitation.

A new anti-bandit gun, shooting at the rate of 1,000 shots a minute, was recently demonstrated in New Jersey. It can change from .45 caliber steel jacketed bullets to fine birdshot. It weighs nine and one-half pounds and does not overheat during action.

BIBLE THOUGHT FOR TODAY

PRAYER ANSWERED:—I sought the Lord and he heard me, and delivered me from all my fears. This poor man cried, and the Lord heard him, and saved him out of all his troubles.—Psalm 34:4, 6.

BURIED WILL IN A DIARY

An ingeniously malicious will led to an action tried in the French courts ten years ago. Jean Laurent, a well-to-do bachelor, who died in 1903, used to keep a diary recording with painful minuteness every incident of his daily routine. At the end of each year his records were richly bound, labeled "Historie de ma Vie," and lent in turn to four old friends, none of whom ever glanced at more than a few pages, although when returning the volume each professed to have read it through and enjoyed it.

Eventually the old man discovered their professions to be false, and piqued at their lack of appreciation, wrote his will on page 647 of the volume for 1901. He divided his whole estate among his four friends; but they remained in ignorance of their good fortune, although they had ample opportunity of learning it, so when Laurent died he was deemed intestate, and a distant relation took possession of his property. Ten years later the will was found, and after a costly lawsuit the real heirs recovered about \$20,000—less than half the amount originally bequeathed.—Manchester, England, Guardian.

Matters in Europe appear to be drifting from bad to worse. The old jealousies are as acute as ever and with every nation on the continent in desperate financial straits as a result of the war, the situation is one not easy of solution. Of course it is certain that eventually much of the indebtedness will be cancelled or repudiated but the policy is to postpone this evil day as long as possible. With the French in a defiant mood over the failure of Germany to make good on her promised payments on the reparations section of the Versailles treaty and with England favoring Germany, trouble is apparently brewing and some who take a gloomy view of the matter say that another war is within the bounds of possibility in the near future. It is certain that some sort of workable understanding must be arrived at soon or the continent will be plunged into chaos. The matter is not hopeless but it will require safe and sane counsel to steer away from therocks.

From all accounts Pontotoc county has fared better than almost any other section of Oklahoma this year in the matter of rainfall. Many parts of the state are very dry and the crops have been cut short but Pontotoc county has done very well in this regard. Most localities have had about all the rainfall they needed and the crops are all that could be expected. There will never be a time when everything will be exactly as people will want it, but old Pontotoc generally gets along as well as the best of them.

Lawlessness in a community usually signs its own death warrant by its stupidity. The lawless element as it becomes bolder grows arrogant and tries the use of force once too often. An uprising of the law abiding element follows and there is a general cleaning up. The great majority of American citizens are for law and order and, although inclined to be easy going, can be aroused to a sense of duty and when aroused they are dangerous customers to deal with.

In some places the chamber of commerce is made up of members in both the town and the rural districts of the county. The county being the unit. In Western Texas they go even farther than that and have a chamber of commerce together embracing several counties. This is a good plan for it brings all classes together in a united effort to advance the interests of all classes at once. The interests of town and country are identical and what is for the advantage of one class is for the advantage of all. Cooperation is the keynote of prosperity.

A large share of the troubles that beset a man are like fice dogs which bark fiercely and threateningly at the passerby, but seldom do anything more than cause some unnecessary worry about the possibility of their attempting to bite. Busy people don't have time to turn and kick the liver out of every mangy cur that barks and similarly it never pays to allow every threatening trouble plunge one into a fit of the blues.

Speaking of the curative powers of the mineral waters of Sulphur they say that not long ago a man who had lived around there most of his life passed away at a ripe old age, but that his liver was so lively that they had to take it out and kill it with a club before the funeral could proceed.

Let a NEWS WANT AD get it for you.

The Forum of the Press

Republicans and Ex-Service Men
(Kansas City Journal)

It is distinctly unfortunate that any political tinge should be given to the performers of the country's duty toward the former service men, especially in the matter of a bonus. No such issue has been precipitated into the campaign by the Republicans, who are naturally proud of their record along this line, but are not seeking to make any political capital out of it.

The ill-advised zeal of some of the Democratic orators, however, has led them to belittle and impugn Republican legislation affecting the ex-service men. The facts are all against the success of any petty politics in the minds of those who knew the fact themselves.

Since the armistice the legislatures in twenty states have provided for the payment of cash bonuses to former service men. Without any exception these twenty legislatures were Republican and states which are known as Republican states. In five of these states a referendum is necessary to validate the action of the Republican legislature and such a referendum will be taken at the coming November elections. These five Republican states, together with the amount of cash bonuses voted by the Republican legislature thereof are:

Illinois \$55,000,000

Iowa 22,000,000

Kansas 25,000,000

Montana 4,500,000

Pennsylvania 35,000,000

Total \$141,500,000

In fifteen Republican states the Republican legislatures have voted bonuses which have to be approved by referendum and which are already being paid. These Republican states, together with the amount of bonus authorized by their legislatures are:

Maine \$3,000,000

Massachusetts 36,000,000

Michigan 30,000,000

Minnesota 23,000,000

Missouri 15,000,000

New Hampshire 1,500,000

New Jersey 12,000,000

Ohio 25,000,000

Oregon 30,000,000

Rhode Island 2,500,000

South Dakota 6,000,000

Vermont 1,500,000

Washington 12,500,000

Wisconsin 28,750,000

Total \$227,350,000

In addition, the Republican legislature of New York voted a bonus of \$45,000,000, which bonus law was later declared unconstitutional by the higher courts of the state.

Excluding New York, this makes a total of over \$368,000,000 in cash bonuses which have been voted by the Republican legislatures of Republican states. Besides this, the Republican legislature of the Republican state of California has provided for the issuance of \$10,000,000 in bonds to be administered by the Veterans' Welfare Finance commission to be expended for former service men and their dependents providing educational and vocational aid and furnishing financial assistance for the purchase of farms and homes.

Not a single Democratic state has passed any legislation giving any bonus of any sort to former service men. With the rare exception noted above confined to Texas and North and South Carolina, no state in the Democratic "Solid South" has passed any legislation of any kind, however trivial, that lends the least assistance to former service men or records them any recognition or preference in public employment.

In all states where Democrats absolutely and exclusively control everything they have done nothing for him. When they had control of the United States congress after the war they did nothing for him.

Against this record may fairly be sent the marvelous accomplishments of the Harding administration, which team with the things that have been done for the men who answered their country's call—all in addition to the splendid record of Republican states set forth above.

CENSURE OF DOCTOR DEBARR

(Hugo News)

The action of the University board of regents in passing a vote of censure on Dr. Edwin DeBarr, vice-president of the University, for alleged political activity during the recent primary election, is doubtless a great surprise of graduates and students of the University and to all citizens who are intimately acquainted with Dr. DeBarr and the history of his work in Oklahoma.

The wisdom of the board's action is readily open to question. Coming as it does, at a time when the state is torn by political turmoil, their action will have the effect of oil on the troubled waters. It will rather intensify the feeling. Should Doctor DeBarr be so minded he can raise a hornet's nest about the heads of the board members.

The doctor's only public statement is characteristic of the bigness of the man. "If thirty years living and doing in Norman and in Oklahoma is not sufficient defense, then I have none to make." What a contrast, between that statement, embodying all that it does and the yelping of the puny partisan crew that would have Dr. DeBarr ousted from his rightful place in an institution which he helped to make.

Dr. DeBarr was a citizen before he was a member of the faculty of the University of Oklahoma. As a citizen he has a right to his own opinions and the expression thereof. He has a right to be for any candidate and any set of principles and as a private citizen to advocate them before the people of the state of Oklahoma.

When a big man as Doctor Edwin DeBarr has not the right to his own opinions and a free and untrammelled expression of the same then the policies of our state institutions are in a sad state. We need men like Doctor DeBarr in politics. If such men had taken an active interest years ago conditions would not have been as deplorable as they are.

The action of the board of regents bears strong evidence of outside pressure and it would not be very hard to guess from whence the pressure came.

It seems to The News that the board members should have been big enough to withstand such pressure. Dr. DeBarr is responsible to them.

MILITANT MARY

Some people don't like hall rooms, but I know what I'm ABOUT. There isn't so much space to tramp THAT ONE GETS TIRED OUT!

Governor Grants 8 Paroles and Pardons and Revokes One

(By the Associated Press)

OKLAHOMA CITY, Aug. 21.—Six paroles and two pardons were recently granted to inmates of state penal institutions by Gov. J. B. A. Robertson, and one man was re-sentenced to the state penitentiary when it was charged he had violated a parole.

Paroles were granted to the following: Roy Huhman, convicted in Blaine county Sept. 9, 1921, of assault to kill and sentenced to four years in the state reformatory; Fuhrman's mother is an invalid and needs him to support her, papers in the case stated. She lives at Atchison, Kans.

George Bedeele, convicted in Custer county April 12, 1922, on a statutory charge, and sentenced to five years in the penitentiary; papers in the case stated his family needed him as a support.

John Lewis, convicted in Bryan county Nov. 23, 1921, of assault to kill and second degree burglary, given two concurrent sentences of five and three years; it was stated he was the sole support of his widowed mother.

Laura Williams, sent to the state industrial school for girls as an incorrigible child from Rogers county, Oct. 29, 1915, paroled to her mother, Mrs. H. A. Hale, Claremore, Okla.

Calvin Barrett, convicted in Custer county, Nov. 21, 1921, on a charge of receiving stolen property and given a two-year sentence, was paroled to support his invalid wife and two children who are now under the care of the county.

John E. Holmes, convicted in Kay county, May 18, 1922, on a charge of grand larceny and given a one-year sentence in the reformatory.

Pardons were granted to the following: Forrest Jackson, convicted in Latimer county July 22, 1919, and given a five-year sentence on a charge of conjoint robbery, paroled July, 1921, and now living in McAlester; Josephine Dean, committed to the state industrial school July 1, 1918, by the Muskogee county juvenile court as an incorrigible child.

Jerome Brown, convicted of murder in Johnston county Jan. 25, 1917, and given a ten-years sentence, paroled June 12, 1920, was remanded to the penitentiary to serve out his term on complaint of ill treatment of his wife and daughters.

When You Feel Shaky

WINTERSETH'S CHILL TONIC

Will tone you up. For 50 years a most successful remedy for malarial fevers and a reliable general invigorating Tonic. It will help to keep you well.

If not sold by your druggist, write WINTERSETH'S CHILL TONIC Co., Incorporated, Lehigh, Pa.

WE INVITE YOU TO KICK

but please don't grumble and growl. It is unpleasant for you and doesn't get us anywhere.

When something goes wrong and disturbs the tranquil routine of daily life the tendency is to grumble and growl to some one who does not care to hear our troubles. One seldom goes to the trouble of making an orderly complaint to officials or those having authority to make things right. If anything goes wrong with your electric service we want you to come to us with the facts immediately and we promise you will get attention without delay.

We are certainly interested in seeing that you get service. We are the only ones who are, the other fellow is too busy to worry about the things that concern only you and us.

WAS A BROKEN-DOWN WOMAN

Then I Began Taking Lydia E. Pinkham's Medicines

Donaldsonville, La.—"I write with pleasure to praise your medicine—Lydia E. Pinkham's Vegetable Compound—which has done so much to restore my health. I was a broken-down woman until my husband brought me a bottle of your Vegetable Compound and one of Lydia E. Pinkham's Blood Medicine. I had been having pains every month and at intervals between, was weak and seemed to be smothering at times, but in a week I felt like another woman. I also used Lydia E. Pinkham's Sanative Wash. It did me a lot of good too. I cannot praise your medicines too much and will be more than glad to recommend them to any woman who is suffering from female troubles. You may print my testimonial, as it is true."—Mrs. T. A. Landry, 612 Miss. St., Donaldsonville, La.

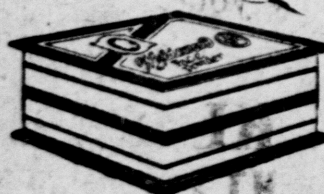

Note Mrs. Landry's words—"as it is true." Every letter recommending Lydia E. Pinkham's Vegetable Compound is genuine. It is a statement telling the merits of these medicines just as the women in your own neighborhood tell each other about them. For fifty years Lydia E. Pinkham's Vegetable Compound has sold on merit.

Hyldewood
Face Powder
Instantly refreshes
outdoor complexion

The Hazards of motoring, swimming, golf, tennis or dancing are delightfully overcome with this unusual face powder. Exquisitely fine and delicate it blends instantly with the tone of the skin. Noted For

Ogden Mills and his home in East Sixty-ninth street, New York City.

THE colossal cost of government as a result of the war, and the heavy burden of taxation upon the people of the United States as a consequence, are engaging the attention of all classes of people, because of the effect of this tax burden upon industry and prosperity.

Federal government efforts to make lighter the burden through rigid economy, elimination of duplication of work, and efficiency standardization of departments and bureaus are resulting in a marked reduction of government cost, according to Ogden L. Mills, noted New York lawyer.

Mr. Mills says that for the fiscal year ending June 30, 1921, the total expenditures of the government were \$5,538,040,689.30, and for the fiscal year ending June 30, 1922, they were estimated at \$3,922,373,030, representing a reduction of \$1,615,668,659.30.

"When it is remembered that approximately \$2,155,000,000 is

expended for what may be termed fixed charges that are unavoidable," Mr. Mills says, "a reduction of over \$1,600,000,000 effected in the balance of governmental expenditure seems to be little short of remarkable."

"These reductions do not represent in their entirety the results of the drastic efforts that have been made to economize, for unquestionably a part of this saving is accounted for by liquidation of remaining war activities. But it is an impressive fact that with but few exceptions every important department shows a substantial decrease of money expended during the fiscal year 1922 as contrasted with the fiscal year, 1921."

"Brigadier General Charles G. Dawes, director of the budget, says that a conservative estimate of the amount saved in purely routine expenditures of the government, through effective executive supervision will amount to about \$250,000,000 this fiscal year."

Ballard Blake is in receipt of a telegram this morning from Mrs. Blake at Columbus, Miss., stating that Mrs. Blake's mother is quite ill. Unless she improves within a few days, Mr. Blake will probably be called to Columbus.

Phone 664—for your toilet articles. Free delivery and prompt service. Wozencraft's Drug Store. 8-4-1mo.

Cadet Dennis Milton Moore of East Ninth street left today to resume his studies at West Point Academy. He will be a junior this year. Milton is one of the Ada boys who is doing well in his advanced studies.

Sweet and hot peppers for making chow chow. Ready now, see me 412 West 10th or R. J. Rains Grocery, B. F. Stegall, Phone 767. 8-19-3t

F. M. Leathern, chairman of the Democratic Central Committee for Jackson county, is in the city visiting his daughter, Mrs. R. C. Boardman, on West Sixth street. Mr. Leathern is a pleasant gentleman and has made many friends here during his short stay.

For farm loans and insurance see T. O. Dandridge. Shaw Bldg. 8-5-1mo.

Lieut. Kenneth C. Frank, connected with headquarters unit, O. N. G., stationed here, who recently tendered his resignation to the adjutant general, has received official notice that the resignation has been accepted. He will no longer be affiliated with the local organization and a successor will be named in a short time.

"Health Service Station." Thompson Drug Store, Phone 10, We Deliver. 6-23-1mo.

L. D. Putman, carrier on Route 4, Ada, was bitten by a dog near Sam Ford's place, three miles east of town Monday while on his rounds with the mail. Thinking that the animal might be mad, Mr. Putman sought a madstone but when it would not stick after being applied three times, it was decided that such was not the case.

Card of Thanks

We desire to thank the dear friends and neighbors and the members of the I. O. O. F. lodge for their kindness and sympathy during the illness and death of our beloved Len.

Signed.
Mr. and Mrs. George Matthews.
Mrs. David Dodd.
Mrs. Jimmie Cope.

SHE'S WORLD'S MOST BEAUTIFUL SO SAYS LONDON

Trini, she calls herself.

Trini, a panish actress, has been named by staid London the most beautiful woman in the world. Her grace and loveliness have won a way into the hearts of London theater-goers and she is now considering offers to try the same wiles on American audiences.

A LIGHTER SIDE TO CUBAN POLITICS

(By the Associated Press)

HAVANA, CUBA, Aug. 22.—Credit is given President Alfred Zayas for the only humorous sidelight that has marked the recent reform upheaval in the Cuban administration, in which the disposal of public funds has figured to a considerable degree.

Asked by a personal friend how he replied to certain pertinent questions regarding Cuban affairs asked by the special American representative, Major General E. H. Crowder, the president is quoted as saying: "Oh I have adopted the principle embodied in the XYZ Method of teaching languages." Pressed for further information, he added: "For example, if I am asked 'Have you your brother's umbrella?' I reply 'No, but I have my grandmother's goshes.'"

Ice cream was first made in Japan and reported by travellers to that country as early as the thirteenth century.

It's toasted. This one extra process gives a delightful quality that can not be duplicated

PRICE REDUCTION SOUGHT BY FARMS

Pre-War Cost Prevails but
Raiser of Foods Gets
no Advantage.

(By the Associated Press)
OKLAHOMA CITY, Aug. 21.—An outstanding result of a recent convention of the Oklahoma Farmers' Union in this city was the adoption of a set of resolutions outlining the position of the union in regard to a number of governmental questions.

As a foreword to the resolutions it was stated:
"All agricultural products are at a pre-war price level; everything that the farmer buys is from twenty five to one hundred percent higher than the pre-war level, including taxes, interest and freight rates. If the farmers are to continue to feed and clothe the world, the prices of their products must equal the cost of production. When the farmer prospers, all laboring men have work and that makes business good."

Among the list of demands set forth in the resolutions are the following:

Ask Free Text Books.
Free text books printed by the state; a state tannery and leather goods manufactory at the state penitentiary; state automobile taxes to be apportioned to the county in which the auto taxed is used; an anti-discrimination bill; a warehouse bill; all expenses of school above a 15-mill levy for a seven-month term to be paid by the state; no more tax-free securities to be issued; that flour mills and coal mines be regulated by the state corporation commission just as cotton gins are now; cost of higher education for children transferred out of their school districts be removed from the home district.

That the government accept Henry Ford's offer for the Muscle Shoals power property; a change in the governmental money system to give farmers equal credit facilities with other classes; a graduated gift and inheritance tax which would give to the government all of an estate above one million dollars; a governmental guarantee of the minimum prices for certain agricultural staples lower, rail rates, both freight and passenger, without reduction of wages paid to railroad workers; governmental economy in public building expenditure; abolition of the war tax on notes.

Work With Unions.
Included in the body of the resolutions was one which announced the policy of the farmers' union toward labor unions. "We think it would not be practical to amalgamate with other unions," it was stated, "but we do believe in co-operating with all unions." Sympathy was expressed for striking railroad men and miners.

The farmers' cooperative movement was endorsed, and plans for its furtherance were suggested. The establishment of a group of chain stores as branch stores of the Farmers' Union Exchange was advocated. According to the plan the exchange would be made into a wholesale house and the chain stores obligated to buy from it.

Cooperative marketing was stressed as a farmers' union program, and members were urged to give fullest support to union elevators, union stores and cotton gins, as well as the union state exchange, insurance company and death benefit association. The Oklahoma Cotton Growers' and the Oklahoma Wheat Growers' associations were commended to all farmers.

The delegates held their meetings in the chamber of the house of representatives at the state capitol. C. S. Barrett, of Union City, Ga., national union president, spoke and presided at several sessions. John Simpson, of Stillwater, was re-elected president of the state union for his fifth term. C. H. Hyde of Alva and Z. H. Lawler of Oklahoma City succeeded themselves as vice-president and secretary respectively.

AMERICAN HOTELS MAY DROP FRENCH NAMES ON MENUS

(By the Associated Press)
ST. LOUIS, Aug. 22.—Guests of hotels and restaurants of the United States will no longer be obliged to adjust their tongues to the unusual French menu terms in order to be high toned, but can use the common English terms without violating any rules of Bon Ton, if proposals are adopted that have been prepared for the annual convention of the International Stewards Association which was opened here today.

The hungry guests can simply say: "Waiter, please bring me some beef and gravy, and black coffee in a small cup," without giving rise to a suspicion that he is not well versed on good manners and rules of society.

SKIDS ENABLE AVIATOR TO MAKE QUICK STOP

(By the Associated Press)
FARMINGDALE, N. Y., Aug. 22.—Using skids instead of wheels an airplane piloted by Lawrence Sperry, one of the governors of the aeronautics Chamber of Commerce, stopped within 50 feet of the place it struck. The landing broke all records for quick stops, he declared.

ATHLETIC RIVALS IN BITTER FIGHT FOR U. S. SENATE

Above, Peter Goelet Gerry; below, R. Livingston Beckman.

Rhode Island is going to sit through a struggle for a seat in the U. S. senate which might be fought out on a polo field instead of in election booths if the law allowed. The contest is between Peter Goelet Gerry, Democrat, and former Governor R. Livingston Beckman, Republican. They live next door to each other and have hobbled over tennis nets and on the polo field.

BUREAU HANDLES JOBLESS CRISIS

Employment Agencies Over
State Met Emergency,
Connally Says.

OKLAHOMA CITY, Okla., Aug. 21.—The story of how the free employment bureaus of the state department of labor met the unemployment crisis of last winter was told to Gov. J. B. A. Robertson in a recent report prepared at the governor's request by Claude E. Connally, commissioner of labor.

The report attributed the "fair measure" of success in handling the situation to the spirit of co-operation developed between the state department of labor, federal employment agencies, associated charities, city managers and other municipal officials, trades and labor councils, civic organizations, chambers of commerce, the Salvation Army, Masonic orders, Knights of Columbus, the American Legion, the Red Cross women's clubs, churches, the Young Men's and Young Women's Christian associations and other organizations.

"The result of this co-ordination of effort was that literally hundreds and thousands of short-time emergency jobs were created," Mr. Connally's report said. "And those in destitute circumstances were connected with these jobs. While this drive did not suffice to entirely meet the situation, it lasted long enough and sufficient jobs were found to tide most of the men and their families over until spring work began to open up."

Ex-Soldiers Favored.
"In placing the men in this emergency, preference was given to ex-soldiers with families, to civilians with families, and to others who had established residences in the communities. It was made known that the transient would not be given employment except in cases where the opportunity came from outside the locality of the agency receiving it."

Measures the department of labor took to meet the situation were related by Mr. Connally as follows: "Early in the fall the commissioner of labor began preparations for making a survey of the unemployment in the state, and arrangements were made to obtain the information by a hurried survey through the schools. Survey blanks were sent to public and parochial schools in twenty-six cities and towns with a combined population of 369,289. The survey showed that on Dec. 16, 1921, one person out of every third family in the state was unemployed, and, using the federal census of 1920 as the basis, it was estimated there were approximately 35,000 persons out of work, two-thirds of whom were entirely out of work, the remaining third being employed on an average of three days a week."

Fifteen percent of all cloth manufactured in Germany is made of sweepings, rags, clippings and cotton waste.

RADIO

HOW TO CONSTRUCT SIMPLE RADIO SETS

Materials That Are Necessary and Method of Assembling and Mounting Them.

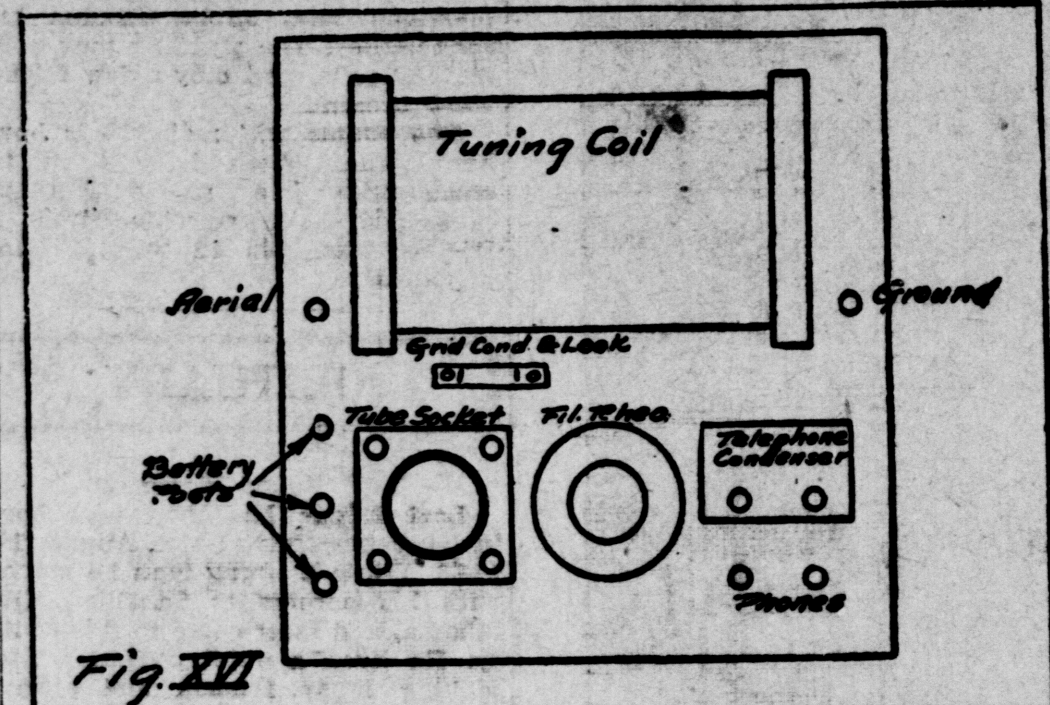

For those who would like to construct a simple nonregenerative vacuum tube receiver, the details of several sets will be given, before taking up the explanation of the vacuum

tube blading posts. This set requires, of course, an "A" battery to light the vacuum tube filament and a "B" battery to furnish the plate potential. The "A" battery should be a six-volt storage battery of not less than 20 ampere hours capacity. One 22½-volt "B" battery unit is necessary for a source of plate potential.

Assembling the Coil.

Starting one-half inch from one end of the cardboard tube, wind on the No. 22 DCC wire until within one-half inch of the other end of the tube. Fasten one end of the winding to the tube, but allow some surplus wire on the other end for making a connection. After the winding is in place apply a thin coat of orange shellac to hold the turns in place.

Assemble the circular-cut pieces of wood in the geometrical center of

tube as an amplifier. The circuits which will be described depend upon the vacuum tube for a detector or as a rectifier not having the additional function of an oscillator.

The first set described will be that of a tuning coil mounted on a horizontal base board. The following material is necessary for its construction:

The Tuning Coil.
A piece of cardboard tubing, outside diameter, three inches, and five inches long. It will cost about 10 cents.

One hundred feet of No. 22 DCC magnet wire. Cost about 25 cents.

One standard slider to fit ¼ by ¼-inch brass rod. Cost about 40 cents.

A six-inch length of ¼ by ¼-inch square brass rod. Cost about 20 cents.

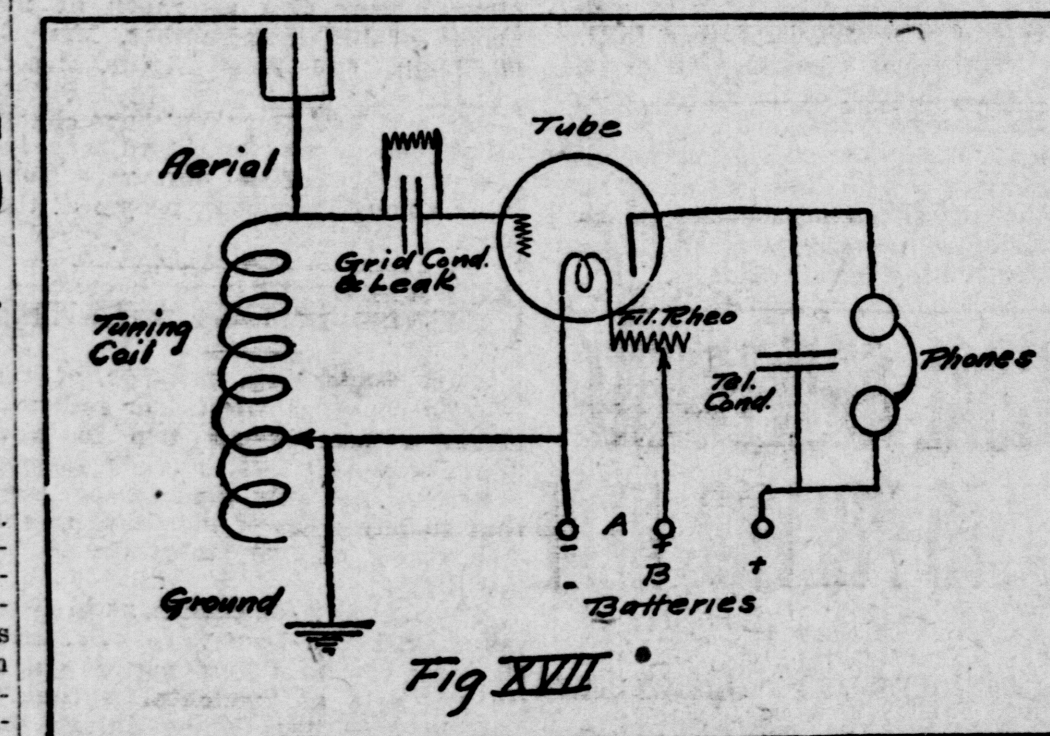

Two circular blocks of wood, whose diameter is just equal to the inside

square blocks and then shellac or varnish them for appearance's sake.

When thoroughly dry slip the two end blocks into the wound tube and by means of a few finishing brads driven through the cardboard tube fasten the end blocks to the wound tube.

The slider is to be mounted on top of the coil and should be capable of making contact with any turn of the wire on the tube. In order to remove the insulation from the wire, just under the rod where the slider moves back and forth wrap a piece of sandpaper around a thin piece of wood and, using another piece of wood as a guide, sandpaper the insulation from the winding.

Drill a hole one-eighth inch in diameter through the slider rod about

diameter of the cardboard tubing and between ¾ and ½ inch thick. Two binding posts. Some orange shellac.

The Detector.
A type U V Radiotron vacuum tube which sells for \$5.

The standard vacuum tube socket costing about \$1.

A filament rheostat of 6-11 ohms resistance costing about \$11.

A combination grid condenser and grid leak for the U V 200 Radiotron costing 55 cents.

In addition a phone condenser costing 50 cents.

One pair of Murdock No. 56 receivers costing \$6.

For mounting on base board:

One piece of wood eight inches square.

SHORT FLASHES

San Francisco is receiving concerts broadcast at Schenectady, N. Y.

In New York a squad of soldiers was drilled in an armory uptown at the commands of a superior on Governor's island.

At the Pacific coast seaside resorts, instead of burying themselves in the sand, the young ladies clamp on their earpieces and kill time between swims listening to radio music.

Educational experts say that radio will prove of great assistance in the development of the minds of subnormal children. The great obstacle in their education has been inability to arouse interest. It is believed that radio will greatly stimulate such interest.

And now it is the dentists who are profiting by radio. It is a great advantage to keep the mind of a patient off his troubles. When a radio ear-piece is clamped on, what registers on the ears of the sufferer makes him more or less indifferent to what is going on in his mouth. Great possibilities for the soothing talker.

First Caddo County Cotton Sold

ANADARKO, Aug. 22.—(Special)—Caddo county's first bale of cotton this year was brought to Anadarko

Saturday by Joe Gordon, who lives a mile east of Anadarko. The cotton weighed 1,400 and was sold in the seed for 6 and one-fourth cents. Merchants are raising a premium.

NEWS NOTES FROM MOVIELAND

Vincent Coleman.

Vincent Coleman, who has been leading man to almost every prominent woman screen star, is despite his success, a very modest fellow. One would expect and even forgive a leading man for being a bit "up screen" after he had played opposite all the well known beauties of the films but Coleman is even humble about his achievements.

One of the biggest problems of being a leading man instead of a star is to keep getting engagements. Being a good actor isn't enough. A certain type is required, a certain height because the leading lady is a bit taller or shorter than the average, and there are numerous other reasons why even an excellent artist is sometimes turned down. Many well known leading men have been "between pictures" much of the time during the past two years, but not Vincent Coleman. For about two years he has worked continuously opposite various women stars. He recently finished playing opposite Corinne Griffith and the very next day was fifty miles away from New York on location with Madge Kennedy. He is now playing opposite Madge Kennedy in "The Purple Highway."

"How do you do it?" he was asked recently.

"Simple," he replied. "Shoe leather is the answer. I wear thick soles you know and as long as they last I keep walking and gathering in new engagements."

Big Timber.
Bernard Durning, who is directing Dustin Farnum, has just left for the Yosemite valley to make exteriors. It is a lumber story in which the elder Farnum will have to fight three villains, including Norman Selby and Maurice Flynn.

Horse Actor.
The print of "Just Tony," in which Tom Mix's horse is featured,

has just arrived at the Fox studio. Those who have seen it promise it will create a sensation equal to "Black Beauty." Tony proves he is a versatile actor and does stunts equal to those of his master.

To Culver City.
Madge Bellamy, who will be seen in C. Gardner Sullivan's "Someone to Love," will return to the Ince studios at Culver City soon. Miss Bellamy has been loaned to play opposite Jack Pickford in "Garrison's Finish."

About Virginia.
Virginia Pearson has bobbed her hair. She attended the opening of "The Prisoner of Zenda" recently in New York with Mae Murray. Both have short tresses.

TULSA PASTOR TAKES CALIFORNIA CHURCH

(By the Associated Press)
TULSA, Aug. 22.—Rev. Mead E. Dutt, pastor of the First Christian church, has resigned his pastorate here to accept a call to the First Christian church at Fresno, Cal. The pastor announced his resignation to his congregation at the close of Sunday morning's service.

Chisels of sharp flint have always been used by savages to cut wood.

Notice To Contractors

Sealed bids will be received by the Board of Commissioners for the City of Ada, Oklahoma, until 2 o'clock P. M. September 5th, 1922, for the erection and completion of a reinforced concrete and steel Memorial Hall building according to plans and specifications prepared by Albert S. Ross, Ada, Oklahoma, and Jewell Hicks, Oklahoma City, Associated Architects.

Each bid must be accompanied by a certified check of bidder's bond to the sum of five per cent (5%) of the amount of the total bid, made payable to the Mayor of the city of Ada, Oklahoma, and will be forfeited and thereby become the property of the City of Ada, Oklahoma, should the successful bidder fail to enter the required bond within eight days after he has been awarded the contract.

Contractors may obtain plans and specifications from the Architects and from the said Commissioners by making a deposit of twenty five (\$25.00) dollars which will be returned if plans and specifications are returned in good condition on or before the date of awarding the contract.

The Commissioners reserve the right to reject any or all bids without recourse.

Each bid must be submitted on the proposal forms as furnished by the Architects.

PARISH CHAPEL

There are a good many coming to school now.

Rance Tucker of Sulphur is visiting home folks now.

Claude Pennington and father, J. E. Maddox and father and Aushie Thompson went to the Washita river Friday fishing and had very good luck.

Elma Eddings was the guest of Blanche Wood Sunday.

Lillian Maddox and Augusta Thompson were the guests of Virgie Maddox Friday night.

Miss Della Dryden and little nephew went with her brother and family to Sheep Creek to start a meeting.

Lyman Pennington, J. C. Maddox, Printess Horton and Henry Meredith were the guests of Sidney Isaacs Sunday.

Estelle Lamb spent Sunday evening with Hazel Horton.

Jewel Isaacs spent Sunday with Zella Pennington.

Mr. and Mrs. Wood went to Stratford Saturday.

Mrs. Eddings and family spent Sunday with her daughter of Worsell, Mrs. Neva Sweet.

Mrs. Fronie Pennington and baby spent Friday night with her Uncle and Aunt.

Mrs. Maddox and family were the guests of Mrs. Thompson and family Saturday night.

B. J. Downing who has been visiting his folks across the river returned home Sunday night.

G. R. Gum and daughter and Dewey Jackson were the guests of his cousin, Mr. and Mrs. J. N. Thompson.

Oliver Wood spent Sunday with Augusta Thompson.

Mr. and Mrs. J. N. Thompson, Mrs. Maddox and little daughter and Mr. and Mrs. Alva Pennington made a business trip to Ada Friday.

Bennie Thompson spent Saturday with Willie Maddox.

JOLLY KID

Gene McClary and daughters, Nellie and Ruth of Yale are visiting relatives here this week.

Mrs. Edna Mitchell returned home Monday from Anadarko, where she has been visiting her sister, Mrs. V. B. Lynn.

Miss Euna Grisham of Ada was the guest of Miss Connie Clark Sunday.

Miss Ollie Auten spent the weekend with Miss Jessie McWhirter of Hart No. 2.

The Vanoss high school ball team played Bebee ball team Friday afternoon. Vanoss won the game by the score of 11 to 8.

Friday August 11, 30 of the most progressive patrons of Vanoss consolidated district met at the high school and organized a mothers' club. They elected as their officers Mrs. Hodges, president, Mrs. P. G. Smith, sec. and treas. After the election of officers business matters were discussed, ways and means of getting play ground equipment planned. A program committee was ap-

pointed and Friday night, Aug. 18, set for the first program in connection with a pie supper. After the club had decided to meet every second Friday at 2:30, tea, and cakes were served by the H. S. girls, after which all stood and sang the Star Spangled Banner, and were dismissed.

The program for the Mothers' Club pie supper is as follows: Poems, Guest, Thelma Jeffress. Song, Selected, Meta Blackwell. Clay Shuttered Doors, Mary Synanon, Thelma Jeffress.

Song, Selected, Clarence Morrison His Symptoms, Horace, Thelma Jeffress.

Selling of the pies. Everybody is asked to attend and bring or buy a pie.

DOINGS OF THE VAN LOONS—Mother finds it takes two make an argument.

By R. LEIPZIGER

Easy to digest—
perfect summer days food—
Kellogg's
CORN FLAKES

Heavy meals during warm weather encourage drowsiness, sluggishness and headache! Eat Kellogg's Corn Flakes liberally because they are the ideal summer food for youngsters and older folks. Kellogg's digest easily and let you walk or play or sleep in peace. And, they're satisfying to the keenest appetite.

Kellogg's crispness and wonderful flavor are a treat in themselves, but they're extra delicious served with fresh fruits now in season. Could anything be better on a hot day than to sit down before a big bowl of Kellogg's, a pitcher of cold milk and some berries or peaches or bananas? As a dessert, you'll certainly appreciate Kellogg's Corn Flakes served with fresh fruit and a helping of cream!

Insist upon Kellogg's Corn Flakes in the RED and GREEN package which bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

Kellogg's
CORN FLAKES

Also makers of KELLOGG'S KRUMBLIES and KELLOGG'S BRAN, cooked and krumbled

300 Women Removed From Burning Ward of Female Hospital

(By the Associated Press)
LITTLE ROCK, Ark., Aug. 1.—Three hundred women patients were successfully removed from large ward building at the state hospital for nervous diseases here early today after a fire, which destroyed the building, was discovered in the attic.
When it was apparent that the building in which the fire originated would be destroyed, firemen turned their efforts to prevent a spread of the flames to nearby buildings in which approximately 2,000 patients were housed. A favorable wind, carrying the smoke in an opposite direction, aided the firemen in their fight.

CAREY PROTESTS SENDING TROOPS

No Lawlessness Exists in Wyoming, Governor Tells Harding.

(By the Associated Press)
CHEYENNE, Wyo., Aug. 1.—Gov. Robert K. Carey of Wyoming, late last night telegraphed to President Harding a protest against the sending of marines to Wyoming to eject alleged squatters from the Tea Pot Dome naval oil reserve. The governor's message follows:
"Have seen press reports to the effect that marines have been ordered to remove certain claimants from lands in the Tea Pot Dome naval oil reserve. If such reports are true, would respectfully protest against such action. If any person or persons are in illegal possession of land in this field, they can be removed by legal processes through courts. Such a program as is contemplated ignores the courts of the nation and establishes a precedent whereby any federal bureau or department may enforce its whims or mandates by military force rather than by legislation. In this instance no legal attempts have been made to remove the claimants. It has not been proven that they have violated any law and it is also possible that their claims are as valid as some of those purchased by Sinclair interests and turned over to the government. Finally I would advise you that no state of lawlessness exists in Wyoming to justify your sending armed forces."

Bible Baseball Is Sport for BBoys at Summer Encampment

TULSA, Aug. 1.—Sunday baseball, conducted by a preacher who acts both as pitcher and umpire, hurling questions based on the Bible instead of curves and inshoots, is being played regularly by Y. M. C. A. boys in camp near his city.
The Rev. W. F. Garvin, director of religious instruction at the Y. M. C. A., originated the idea of biblical baseball. Last Sunday, at the Rogers Kemp Y. M. C. A. camp on Elk river, Tulsa boys chose sides with nine on each team. As a kid went to bat, the preacher fired a Bible question at him. If the struck he was retired. If he answered the question correctly, he went to first base, and members of his team on other bases moved ahead. All baseball rules which could be applied were in force. The game is to be played each Sunday for the rest of the camp period.

U. S. LABOR BOARD MAY CALL SECOND WAGE CONFERENCE

Ben Hooper, chairman U. S. rail labor board.

Ben Hooper, chairman of the U. S. rail labor board, whose call for a conference between rail executives and union chiefs for June 27 was ignored by the labor leaders, probably will call another conference. It is understood that both sides are anxious to get together and that both will gladly attend the proposed meeting.

CAPITAL CASTS HEAVIEST VOTE

Police Keeps Lines Going By Steady Steam Into Voting Booths

(By the Associated Press)
OKLAHOMA CITY, Aug. 1.—Today's primary election will bring the heaviest vote ever polled in Oklahoma City, according to early indications. Unprecedented crowds stormed the election boxes in various precincts and were made to "fall in line" under the watchful eyes of policemen. An hour before noon, the crowd gave no indication of diminishing. Election officials claimed "there was a woman for every man at the polls." The negro vote was comparatively light.
One precinct reported a shortage of ballots at 9 o'clock but election officials expressed the belief that there had been some mistake.
Sheriff Ben Dancy was investigating the report of another irregularity. An effort to steal the election by ousting regular appointed officials at Council Grove township was charged by W. H. Blaney, who was appointed judge of the election board there. When he went to take his place at the polls this morning, Blaney told the sheriff, he was told by George E. Fleener, precinct inspector, that he could not serve and another man had been appointed in his place.
A police official also told county authorities that election officials at Council Grove were advising voters to cast their ballots for their favorite candidates for sheriff.

Mr. and Mrs. Lee Smith report the arrival of a daughter at their home Sunday.

S. M. Shaw, proprietor of Shaw's department store, left today for eastern markets to purchase fall goods.

Enid.—Nine building permits totaling \$30,000 were issued by the city engineer for the week ending July 22, according to a report prepared in his office.

Los Angeles school children write daily on the blackboard, "it is dangerous to play on the street."

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says liberty bells are a fine investment—up to a certain point, but beyond that point they are a bad investment.

TWO-WAY CANAL NOW ADVOCATED

Deep Waterway Connecting Lakes Superior and Michigan Urged

(By the Associated Press)
CHICAGO, Ill., August 1.—A two-way ship canal between Lakes Superior and Michigan, deep enough for ocean steamers, could be built at a reasonable cost and would divert to this route and to Chicago at least seventy-five percent of the tonnage which now goes through Sault Ste. Marie, according to D. Chase Denison, a Chicago engineer.
After surveying the territory through which it was proposed to build such a canal, Mr. Denison said that the best place for the cut-off route would be from a point near Au Train, Mich., on Lake Superior to the headquarters of the bay north of Escanaba, Mich., on Lake Michigan.

It was pointed out that any ship canal from Lake Michigan south to the Gulf of Mexico would require more water than Lake Michigan could at present supply. As an example the engineer showed that the Panama canal would be useless without the artificial lake which keeps the canal full of water. And Lake Michigan, he said, is shrinking. Since the government began to keep records, the surface of the lake has been lowered several inches. Half a century ago the lake was said to be slightly less than 620 feet above the surface of the Atlantic ocean and is now said to be little more than 618 feet above the Atlantic. According to Mr. Denison the greater part of this shrinkage has taken place during the last fifteen years.

Lake Superior Water.

"The water necessary for the Gulf canal could be obtained from Lake Superior," the engineer said. "Lake Superior is now nearly twenty-one feet higher than Lake Michigan, but the bottom of Lake Superior goes down many hundred feet below the surface of the Atlantic. In many places in Lake Superior it is not certain that the bottom has been reached even at four or five thousand feet, while Lake Michigan is comparatively shallow even in its deepest places. The many smaller lakes in territory surrounding Lake Superior are one to eight hundred feet above its surface. They receive much water but have no surface river outlets. It is Mr. Denison's belief that these lakes have underground outlets into Lake Superior.
The supply of water from Lake Superior and the smaller lakes that are above and surrounding it will be practically inexhaustible, but only as long as the large tracts of forests are allowed to stand. The future generations, it was stated, will suffer in every way if "this selfish generation is allowed to rob the earth of one of its most valuable resources."

Rimrock Holds It Back.

Mr. Denison said this excessive water supply gives Lake Superior much more than it needs, and in certain seasons the oversupply goes down through Sault Ste. Marie into Lake Huron in large quantities. "All of this water should come down the twenty-one foot incline into Lake Michigan and would do so were it not for a solid rimrock or basin edge which holds it back," he continued. "This rimrock starts on this surface at a point a short distance west of Marquette and continues east to Sault Ste. Marie. A low place in the rimrock at Au Train makes this point the most desirable spot to begin the canal."

The engineer's observations showed that there are few shallow beaches around Lake Superior except in bays, channels and small river mouths. Ninety-five per cent of the shore is deep water one hundred to five hundred feet from land, and consequently does not give good footing for breakwaters much further out.

At the proposed starting point the soil is light and sandy for slightly more than two miles south from Lake Superior, averaging ten to fifty feet above the level of the lake, the report shows. The next three miles are of rimrock, fifty to seventy-five feet above the lake level, and covered with a light, sandy soil. South of the rimrock the land slopes down for a distance of more than a mile to about four miles of low, swampy land from which a small river runs to headwaters of the Escanaba bay.

"This Lake Superior and Michigan canal would not cost more than \$10,000,000 as no expensive dam would be necessary," Mr. Denison said. "This 'rimrock' and locks would form the dam. The extra water at the locks could be used for electric generating and this together with the tolls on boats and freight going through the 'locks' both ways would easily pay the canal cost and operating expenses in ten years."

The engineer proposed that the work be done in the summer and estimated that it would take two or three summers, as there would be great difficulty during cold weather. He pointed out that from Lake Michigan boats could go into Lake Calumet for an inner harbor, and if the Illinois drainage canal were changed for boats, they could go hence to the Mississippi river and down to the Gulf of Mexico.

Mr. and Mrs. Lee Allen, who have been visiting her brother, J. O. Abney and family, have returned to their home at Norman.

TULSA SECURES LAND FOR GIANT WATER PROJECT

(By the Associated Press)

TULSA, Aug. 1.—Purchase of land and right-of-way for the \$6,800,000 project which is to bring mountain water 60 miles from Spavinaw creek to this city, is now under way, it has been announced at the water commission headquarters.

A storage lake is to be constructed in the Spavinaw bottoms, backed up by a 60-foot dam at a point seven miles from the confluence of Spavinaw creek with Grand river. From there the water is to be brought to the city through a pipe line.

Much of the land needed for the project is owned by Indians, and, under an arrangement with officials of the agency at Muskogee, it is to be appraised and purchased by the city.

Where such an arrangement is possible, the commission has announced as its policy an agreement on price to be reached between the city and the owner of property.

Condemnation proceedings are to be brought only in cases where the owner refuses to sell or where the city appraisers believe the price demanded is exorbitant, it was explained.

Purchase of the right-of-way is in charge of W. L. Mays, part Indian and a native of the Spavinaw hills. Engineers planning the project have announced they anticipated bids on practically all of the construction work will be asked during the month of August.

Mrs. E. D. Payne, who has been making her home here with her daughter, Mrs. O. R. Nance, left today for Dallas where she will spend some time visiting another daughter.

NEGRO IS HANGED IN PUBLIC AT HOT SPRINGS

HOT SPRINGS, Ark., Aug. 1.—Bunk Harris, negro, was taken from officers here at nine o'clock this morning and hanged in a public square as a result of the killing early this morning of Maurice Connolly, an insurance solicitor, who was shot by a negro burglar.

FRANCE WILL IMPOSE PENALTY ON GERMANY

PARIS, Aug. 1.—France will impose penalties of an economic and financial character upon Germany because of her refusal to continue payments of the debts contracted by her nationalists with allied nationalists before the war, it was said in official circles here today.

Mr. and Mrs. T. H. Wyatt and family returned Monday from Sulphur where Mrs. Wyatt and children have been visiting for several days.

Emergency Calls for Ice

OUR office phone is sure enough busy whenever the weather turns hot. Emergency calls often come at a time when it is difficult indeed to meet them. Our wagons may be all out, with both regular and extra crews making every effort to take care of their routes.

It requires extra effort and extra cost, which are cheerfully expended in the interest of first class service.

Customers first, and then transients; but, all are served.

AMERICAN TOURISTS FLOCK TO OSTEND PROMENADE

Crowds at the Digue, one of the finest promenades in Europe.

Thousands of the hordes of American tourists now in Europe find their way to the seashore of Ostend. Hotel rooms there are at a premium. The Digue, one of the finest promenades on the continent, is crowded daily with U. S. folk seeking entertainment and thrills.

AGREEMENT IS REACHED IN ILL.

Coal Operators and Miners Agree to Old Scale for Time Being.

CHICAGO, Aug. 22.—An agreement to settle the Illinois coal strike was reached this afternoon by the sub-committee of Illinois operators and miners scale committee, the Associated Press learned this afternoon.

The settlement plan is simply a renewal of the 1921-22 wage contract, which is in accord with the recent Cleveland agreement for settlement of the nationwide coal strike, which began April 1, last.

Although the settlement plan had not been signed, the leaders in the sub-committee conference were agreed that the ratification of that agreement would not be long delayed.

"I am going home tonight," said W. K. Kavanaugh, president of the Fifth and Ninth district operators associations, in emphasizing the fact that an agreement had been reached.

The draft of the agreement reached by the sub-committee was not expected to be long. Its exact form was said to be ready for publication and was expected to be signed promptly at a joint conference of the full wage scale committee of operators and miners at two p. m. The ratification appeared to be little more than a formality, according to leading operators who agreed that the settlement plan had been decided upon.

The joint session for ratification was delayed while the operator members of the sub-committee reported to the operators wage scale committee.

The announcement of the sub-committee was confirmed.

A SMILE A DAY

POPE

His Christian name is William and the fellows call him "Bill." And he's "he-man" from his head down to his feet. There's titters from the joyful side line sitters when his helmate fondly dubs him: "Buddie-sweet?"

INSURANCE MAN ARRESTED ON CHARGE OF MURDER

DENVER, Aug. 22.—With the arrest of Albert J. Lowe, an insurance agent on a charge of murder, police at Greeley, Colo., announced today that the warrant was issued as the result of an investigation of the death here, indirectly through the explosion of a gasoline stove of Edna G. Skinner, 22 year old school teacher of Bloomington, Iowa.

The authorities stated that they had accumulated evidence tending to show that the young woman, who is a sister of Lowe's wife, was persuaded by him to buy an insurance policy from him, naming him as the beneficiary.

Farmers' Column

By Byron Norrell

C. W. Zorn, sales manager of the Pontotoc County Melon Growers' Association, states that the organization shipped nine cars of melons during the season. They went to Oklahoma City, Okmulgee, Tulsa and Kansas City. The first cars brought around \$14 per ton but as the season advanced and the hot weather cut the quality of the melons, the price dropped. The lowest price on cars from which returns have been received was \$6 per ton, Mr. Zorn states.

A stalk of cotton is on display at the M. & P. National bank containing 72 squares and bolls, mostly grown bolls. The stalk was raised in a patch grown by Judge and Mrs. C. O. Barton on the north edge of the city. They have another stalk with 90 bolls they are saving for the fair. The patch has been the range of a flock of chickens and the boll weevils have done very little damage.

Oklahoma Crop Notes.

OKLAHOMA CITY, August 19, 1922.—In the latter part of the summer, just before school opens, we have each year at the A. & M. college our annual Oklahoma Farm Congress. This year the date of the congress is set for August 23rd and which will remain in session through Saturday, August 26th. Farmers, club boys and girls all come for a week and hear noted lecturers on current problems in agriculture, and where a short course is given on some of the important problems with which farmers are having to deal. These courses are made as practical as possible.

During the farmers' week, one of the special features of the work is the observation trips where the farmers are given an opportunity to study the various departments of the college, the livestock, field experiments, horticulture, and poultry work, securing information that is not available in the form of publications.

Then, too, it is the custom for many of the leading agricultural and livestock associations to hold their annual meeting in Stillwater during Farm Congress Week. Two hours each day is set aside for association meetings. Many of the farmers come in automobiles and provision is made for them to camp if they desire. In fact, the college, with its resources, is turned over to the farmers for this event.

Depths to which the ground has dried out in various parts of the state show a serious lack of moisture for all crops. In the western part of the state, where the drought is most severe, the ground is entirely dry to a depth of five to six feet at the following points: Binger, Clinton, Elgin, Frederick and Elk City. At Norman, near the central part of the state, the soil is dry from two and one-half to five and one-half feet, depending on whether the test was made on high or low ground.

At Konawa moisture showed at ten inches; at Ada, at ten inches; at Wapanucka, at 18 inches and at Okemah at 14 inches. The soil was dry to 20 inches at Tulsa. Between Bigheart and Pawhusa dry soil was found to a depth of 18 inches, and between Wagoner and Coffeyville, Kansas, uplands showed moisture at 24 inches and lowlands at 12 inches. These reports were submitted to this office by the Southwestern Bell Telephone Company through their line workmen, the test being made when digging post holes.

Drouth has continued to injure the Broom Corn crop both in the Standard and Dwarf sections; harvest is extending well above the Elk City district. Yields of corn are very variable, ranging from 4 acres to the ton to more than 30 acres. Very little is being sold and the bulk of that harvested is being held on the farms where grown.

The dry weather is having an adverse effect upon most of the cotton crop; bolls are opening prematurely and shedding of squares and young bolls is severe. There are sections in which the weevil is doing very little damage, but in others in

The same vicinity much injury is being done not only by the weevil but the bollworm. Upland cotton, especially that on tight land, is small and needs rain badly.

J. A. WHITEHURST,
President State Board of Agriculture.

Market Bulletin.

CHICAGO, Ill., Aug. 19.—The supply of cream delivered to creameries during the week was smaller than last week, and has resulted in higher prices being paid for butterfat and butter. The consumption is ahead of last year. It is not expected at this time that importations will be heavy.

Egg receipts are lighter and there is a continued good demand for good eggs. To secure best prices, eggs should be gathered daily, kept in a cool place, and marketed frequently.

The volume of poultry moving is sufficient for current use; in fact, there has been a little surplus of dressed chickens and broilers this week, resulting in some decline in price.

SWIFT & CO.

The airplane thief is the latest type of criminal. In Spokane two men appropriated a Curtiss biplane started the engine and ran the plane a quarter of a mile down the field wrecking it in a collision with a board fence.

America Leads in Home Comforts

The average American home has more comforts and conveniences than the palaces of Europe. Home for home, the American household has a well-kept look, an atmosphere of prosperity and contentment you cannot find in the homes of any other country in the world.

In foreign lands, the modernized dwelling, as we know it, is found only in limited numbers and then only in the larger cities.

In America, even in remote rural districts, you find pianos, vacuum cleaners, washing machines, up-to-date heating systems, telephones and numberless appliances that go far to make life easier, happier and more worth while.

You may not realize it, but America's high standard of home life is due largely to advertising. For the development of advertising is distinctively American. It has taken its place as a leading force in bringing together the interests and wants of a great, united people. And a large share of the credit for this development is due the newspapers.

Stop and think how many of the appliances you use, the food you eat, the clothes you wear, and other articles entering into your every-day life, were popularized by newspaper advertising.

Then you will realize what a vital part advertising has played and is playing in your daily life.

You owe it to yourself to read the advertisements. They mean a lot to you.

The newest Materials for Fall Dresses

Models for Autumn are so simple that schoolgirls are buying our patterns

MATERIALS were never so lovely and styles so simple as they are for Fall. The new materials we have in are the softest things and in such lovely colors—the favorite silhouette is straight with a hipline instead of a waistline.

Our pattern department has hundreds of these new simple Fall designs. With The Deltor, making them is so easy that more and more girls are making themselves the most delightful dresses at very little cost.

Stop in and look at the delightful new home-spuns, crepes, serges and novelty materials. New York and Paris have never produced lovelier fabrics than this season.

GLORIOUS GLORIA PLEASE ADA GOERS

The McSwain theater was filled last evening with those wanting to see Gloria Swanson and Rodolph Valentino in "Beyond the Rocks."

And they were not disappointed, for the gowning and setting were excellent. There is little to the story to command attention, but the acting of these two stage stars is all it has been said to be.

Gloria plays the part of a girl who marries for money to please her family and is in love with a young moneyless nobleman. The nobleman is the son of an Italian mother and inherits the fire of Italian love. The story clips along here and there, the setting jumping from place to place to give a wide range to the acting and the gowns. She is always in style whether it be in the richly furnished ball room or in the blowing sands of the Sahara.

All in all, the show is pleasing and affords a couple of hours of clean entertainment.

Mount Kenya, in Africa, is nearly three and one-half miles high and straddles the equator. The summit is always covered with snow and in climbing to the top one passes through all the climates known from the tropics to the arctic.
